

*Infuse reduction power
from lips to your whole body cells
with ORP LIP BALM*

**ORP LIP BALM
100% Natural Ingredients**

ORP LIP BALM with the reduction action of the body changes the concept of lip balms.

Plant extracted calendula oil gives slightly different colors depending on the climate variation of the harvest time, however, these differences in color do not affect the product's safety and quality.

Retail price 3,500 yen
Net weight: approx. 4.5g

● ORP LIP BALM Ingredients

- Agrochemical-free soybean unicellular powder (non GMO)
- Calendula oil, Honeybee wax
- Naturally extracted collagen, Natural enzymes, Glucose, Deep ocean water
- Scent-free, No coloring, No coal tar dye

**Precautions in Using
ORP Lip Balm**

- ORP Lip Balm is manufactured with natural ingredients that are additive-free, no artificial coloring, no preservatives and no chemicals.
- Because of that reason, even the product is unopened, it is recommended that it is kept in a cold storage below 15°C without direct sun light and high humidity.
- Additionally, since there are no preservatives added to the product, it is recommended that you keep it in a refrigerator when using in a warm climate and even during summertime in Japan.
- After an experiment done by a resident in Hawaii where the climate is warm, we have concluded that it is better to keep it in the refrigerator to maintain the quality of the product.
- When you are taking this product to a warmer region, we recommend it to always be stored in refrigerator and make sure to put it back after each use.
- Please make sure that you store this product out of the reach of children and where pets cannot put it in their mouth.

Please do not hesitate to ask us if you have any questions or concerns.
